Total System (Weight) Pole & Turf Spike	3kg	2kg	1.5kg

The **OzZ Poles** system is a new method for displaying fabric flags and banners so that the image is viewed in full display at all times. This vertical, free-standing pole is constructed from tubular aluminium and is collapsible for transportation. A variety of bases enables the pole to be used internally and externally, in calm or windy conditions. The pole rotates 360 degrees, according to the wind direction.

Guidelines

OzZ Pole Assembly

Remove all components from bag.

Push spike base into ground.

Note: If surface is too hard use a rubber mallet (which can purchased from any hardware store)

Join poles together starting from the bottom (Thickest) pole. Push pin in and lock into hole of adjoining pole.

Join the curved pole last to adjoining pole (Keep curved pole facing pins).

Starting with the bottom of the flag, thread from the top (curved) pole.

Pull down flag and tie off on loop. (as shown in insert).

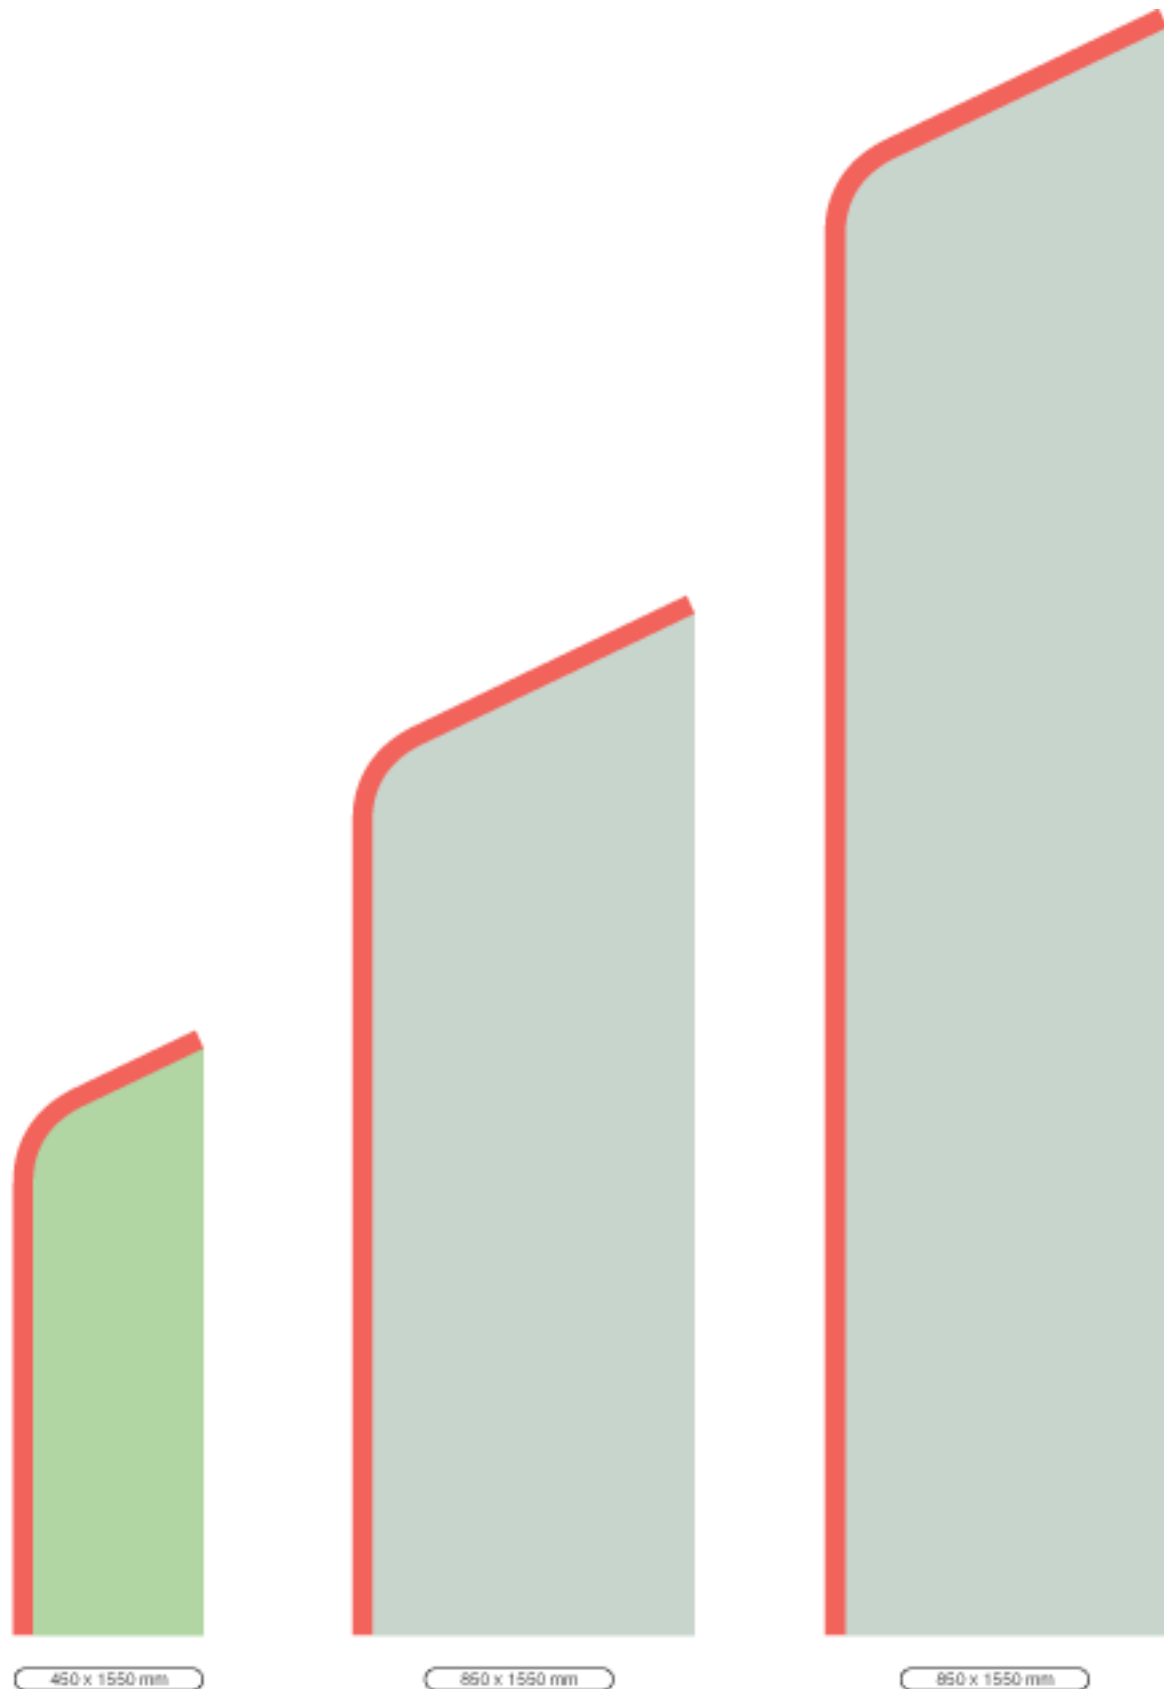

Insert flagpole into base.

System completed.

Note: When removing turf spike push back and forward to loosen then pull out.

450 x 1550 mm

850 x 1550 mm

850 x 1550 mm

OZZPOLE Dimensions

Pole Heights	Banner Sizes
1800 mm	450 x 1550mm
3100 mm	850 x 2700mm
4500 mm	850 x 4250mm
